

2.0 - Area Classification Drawings Status

Paragraph 354 of the HSE DSEAR Code of Practice states “*where a hazardous area classification study has been carried out under Regulation 7, this should be recorded in the form of a drawing which:*

- a) *Identifies the hazardous areas and types of zones;*
- b) *Shows the extent of the zones in both plan and elevation (i.e. illustrates the three-dimensional nature of the hazardous zone);.....”*

The existing area classification record drawings for the Royal Seaforth Grain Terminal are detailed in the table below.
